

Hand Surgery Resource Newsletter Volume 3, Number 4

HAND SURGERY SOURCE v1.0 HAS LAUNCHED!

After four years of preparation, we are very excited to announce the launch of Hand Surgery Source today! This new web resource presents the fundamental principles of hand surgery. Numerous diagnoses that affect the hand are reviewed. All symptoms, signs, diagnostic testing and treatment options are supported with photographs, diagrams, imaging study examples and references.

Hand Surgery Source contains:

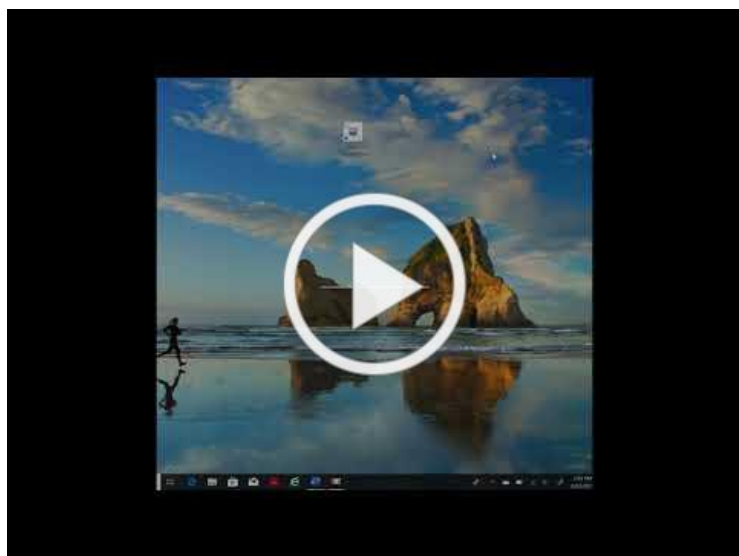

- 235 diagnostic guides
- 160 exams, tests and signs
- 25 diagnostic studies
- Many search options, including congenital disorders, tumors, anatomy/systems and general search tools
- 2,100 photos and drawings
- 122 videos

Our research is supported by 3,733 references which include 3,002 direct links to PubMed.

Existing Hand Surgery Primer users can log into Hand Surgery Source with their Primer credentials.

HAND SURGERY SOURCE APP IN DEVELOPMENT!

While the Hand Surgery Source app is in development, a shortcut from your Windows or MAC desktop is easy to create and allows convenient access directly to the website. Learn how to create the desktop shortcut in the below videos.
